## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Superintending School Committee and Citizens of  
the Town of Greenwood:

I herewith submit my third annual report of your  
schools.

I believe that the town should be congratulated on the  
efficiency of its teaching staff. Mrs. Erna Adams of  
Bridgton, who assumed the Principalship of the Locke's  
Mills School in September, is a teacher of training and  
experience. Under the fine leadership of Mrs. Adams,  
with her able and loyal assistants, Miss Edna Kemp and  
Miss Hazel Salls, the Locke's Mills School is in excellent  
hands. Mrs. Colista Morgan, Miss Maude Salls, and Mr.  
Guyson Davis, continue their faithful and efficient work  
in the Greenwood City, Tubbs, and Richardson Hollow  
Schools, respectively.

The Superintendent is able this year to give more time  
and thought to the needs and supervision of the schools  
as the result of a vote taken by the joint committee of  
the five towns comprising this school union to employ an  
office clerk. The expense to each town is small since \$100  
of the clerk's salary is paid by the State.

Greenwood's generous apportionment from the State  
Equalization Fund has been used for general school effi-  
ciency in accordance with the State's regulations for the  
expenditure of this fund. As stated in last year's report,  
this fund can be used only as approved by the State Com-  
missioner of Education.

It has made possible the purchase of encyclopedias, ref-  
erence and library books, and in every building equip-  
ment, including bookcases, has been provided to care for  
the additional books. New textbooks have been purchased  
until the school is well supplied with up-to-date texts.  
More charts, maps, and other supplies, have been pro-

vided to assist the teachers in their work. Teachers have been given small amounts to help in defraying expenses for summer school attendance. This expenditure for the professional growth of teachers was especially recommended by the Commissioner of Education. The low salaries have been increased. If we are to keep good teachers, we must pay salaries in keeping with those paid for efficient teachers in other localities.

The large expenditure required for high school tuition is Greenwood's greatest school problem. There are thirty-one pupils now enrolled in high school and the number to enter high school next fall is greater than the number to be graduated in June. It is not safe to allow less than \$3,000 for high school tuition alone. To pay this amount for our high school pupils and at the same time keep up the standard of our elementary schools demands a real sacrifice on the part of the taxpayers. Our boys and girls deserve the best opportunities possible. Your superintendent is sincere in saying that the scholastic ability and the work accomplished by the Greenwood pupils are second to none when compared with those in the other towns in the union of which Greenwood is a part.

The conveyance situation is an ever-present problem. May I say that the town was reimbursed in the amount received from the State School Fund for a part of the amount expended for conveyance. This is in accordance with the provision whereby the State pays conveyance for temporary residents' pupils.

The health program is not so successful as one would wish. The school nurse examines and reports defects but unless parents can provide the means for correcting the defects little is accomplished. The Play Day of last May was fundamentally a health project and I wish to express my appreciation to parents, teachers and pupils who coöperated to make the day a success. It is hoped there will be more "seven-point" pupils this year.

The amount spent for janitor service is more than in previous years, but the committee feels that the increased expenditure is justified by the quality of service received.

Mr. Jason Bennett's interest in caring for the building and the heating plant and his interest in the comfort of the teachers and pupils are assets to be recognized.

The major repairs included the digging of a trench to aid in preventing the water from draining into the basement at Locke's Mills. This resulted in greatly improving the drainage but even now conditions are not satisfactory. The interior of the Tubbs and Richardson Hollow buildings and two rooms and the hall at Locke's Mills were refinished. The committee accepted the offer of Mr. Jack Mustonen to give the land to enlarge the schoolyard at Richardson Hollow provided the town would pay for the fence. A fence has been built and with the removal of some rocks and smoothing up the ground an ample and much needed playground will be provided.

In considering the appropriations for the next year the committee feels it is recommending the smallest amounts possible. It will be recalled that last year, because of fewer high school pupils than were expected, there was an unexpended balance which seemed to justify a reduction of \$200 on the previous year's appropriation. This year the reverse is true so that it seems necessary to increase the appropriation for the general school fund. The committee is informed that Greenwood's apportionment from the State School Fund and the Equalization Fund will be considerably less than in the last two years; hence it seems necessary for the town to consider these facts in making its appropriation. It may be well to state that the regulations governing the Equalization Fund required that it be spent before January 1, 1939. The unexpended balance of \$1,663 on the general fund seems large but this is due to the fact that the books were closed January first. Had the accounts been carried to February as heretofore the balance would have been approximately \$700.

It would seem advisable even though the fiscal year will close on January first that appropriations be made to care for the schools until February, as in previous years.

In closing this report I want to say that I am proud of the Greenwood schools, and I wish to express my appreciation to the taxpayers for their financial support of the schools, and also to the Superintending School Committee,

citizens, teachers and pupils who in countless ways have made my work pleasant and I hope to some degree profitable.

Respectfully submitted,

CARRIE M. WIGHT,  
Superintendent.
